TOWNSVILLE MARKETS

Free Prize Draw Policy

Version 1 - Revised 04 November 2026
Effective Date 04 November 2026

Townsville Markets conducts these free prize draws. No purchase is required. Market visitors and vendors may enter; Townsville Markets staff working at the market may not enter.

Enter your first name, surname and Australian mobile number through the market's QR-code entry page. Each person may enter once per market date. Up to four different people may use one mobile number; an identical name and number cannot be entered twice.

The entry page lists each prize, its retail value and draw time in the order the prizes will be drawn.

Entries open 30 minutes before the market starts. Entries received before a draw actually starts are eligible for that draw and any later draws at the same market. Previous winners remain eligible.

Entries close at the scheduled time of the final draw. All times are Townsville time (AEST, UTC+10), without daylight saving.

Staff select each winner at random and announce the winner's first name and surname initial at the market, together with where to claim. Results are not published online. Winners must claim in person and confirm their full name and mobile number. A winner has until the next draw starts to claim; the final winner has until the market closes.

Unclaimed prizes are not redrawn that night. They may be offered in a future announced draw. The entry page gives the exact dates, times and claim deadline for each market.

Details submitted for a prize draw are used to run the draws and verify winners, not for marketing or a mailing list. At midnight after the market, non-winning entries are deleted from the active entry system. Townsville Markets retains a record of each person drawn, their prize and whether it was claimed.
